Cape Town

EXPERIENCE

Trust My Travel, UI & UX Designer (Contractor)

Apr 2019 - Present, Cape Town

Designing products that focus on creative ways to handle large amounts of data, dashboard user experience, responsive tables & mobile usability.

Kurtosys, Digital Experience Designer

Sep 2017 - Mar 2019, Cape Town

Designed and developed financial data management applications including fund explorers, visual data tools for financial service businesses. Other responsibilities included client liaison and mentoring.

Effcomm, Web Developer (Intern)

Nov 2015 - Jan 2016, Cape Town

Working in a development team responsible for building applications in PHP using Zend Framework 2 and Doctrine ORM.

Play With A Purpose, Project Manager (Monash)

March 2015 - Nov 2015, Johannesburg

Built a resource management system for PWAP to assist in their daily business. The application was built in PHP on the Laravel 5 framework. Unique responsibilities (as Project Manager) included interpreting the business needs and maintaining the project scope.

EDUCATION

Bachelor of Science, Computer Science

2013 - 2016, Monash University

The Business Systems major focuses on Business Analysis and Information Systems Management in the pursuit of designing and developing effective business solutions, as well as managing large business systems. Within the problem-solving process, leadership techniques for developing and managing organisational systems are also explored.
